Allowable Subject Matter

1. Claims 1-9 are allowed.
2. The following is an examiner's statement of reasons for allowance: The most relevant prior art of reference was that U.S. Patent No. 5,738,318 (Biondo, et al) and European Patent Document No. 1 209 247 (Nagaraj, et al). However, they do not teach nor fairly suggest singularly or in any combination thereof a method for strengthening grain boundaries of a single crystal or a directionally solidified article made from a Ni based superallow while the article is in a solid state after casting and containing at least one grain boundary or a casting defect with at least one grain boundary, comprising the step of: applying a surface diffusion process to a surface of the article thereby diffusing grain boundary strengthening elements of one or a combination of boron, hafnium, zirconium along the at least one grain boundary of the article to enrich the at least one grain boundary with said grain boundary strengthening elements without forming precipitates.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Felisa Hiteshew whose telephone number is (571) 272-1463. The examiner can normally be reached on Mondays through
